# tecSol

## Design solar panels Roof and free-standing installation

- Attractive modern design
- Controlled and tested quality
- Short amortisation times due to excellent value for money
- 10 year function warranty
- Suitable for universal use

*Our solar technology must work and look good!*

# GASOKOL

## tecSol DESIGN SOLAR PANEL

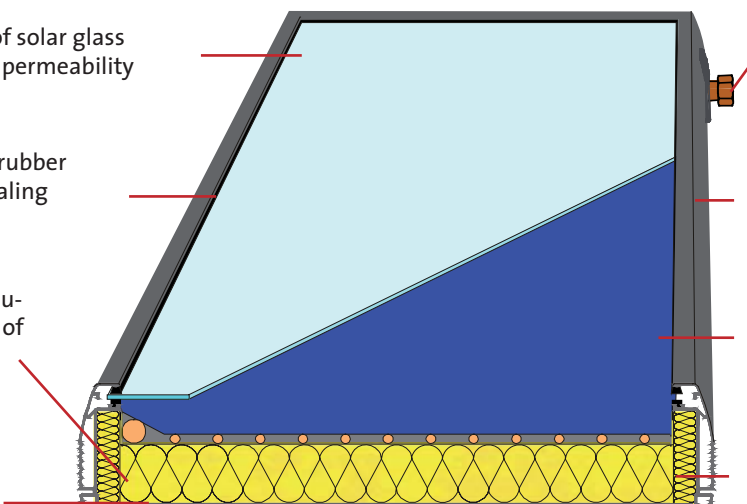

tecSol combines best design with maximum functionality. Suitable for roof or free-standing installation, the panel is available in a standard format of 2,25 m<sup>2</sup>. tecSol can be extended at will and is dispensable in vertical and horizontal version.

Hardened, hail-proof solar glass with high radiation permeability

High quality EPDM rubber seal with several sealing levels

50 mm rear wall insulation for high level of efficiency

Rear wall made of aluminium sheet

The unique screw connection guarantees a sure and a long lived connection even at high temperatures.

Double-walled powder-coated aluminium profile frame, welded mitre joint

Copper absorber with highly selective coating for most effective use of solar energy

20 mm degassing-free mineral wool side insulation

### GASOKOL INSTALLATION ACCESSORIES

Aluminium and stainless steel mounting systems are perfectly coordinated with the product and the various mounting systems:

tecSol on inclined roof

tecSol installed on rack

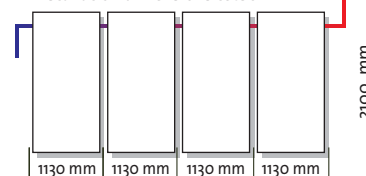

tecSol-Q installed on wall

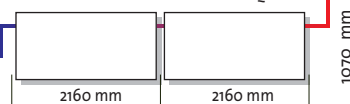

### TECHNICAL SPECIFICATIONS

Dimensions:	<b>tecSol</b>	2100 x 1070 x 105 mm
	<b>tecSol-Q</b>	1070 x 2100 x 105 mm
Gross surface:		2,253 m <sup>2</sup>
Light entry/aperture surface:		2,015 m <sup>2</sup>
Absorber surface:		2,015 m <sup>2</sup>
Weight without heat carriers:		48 kg
Total panel volume:		1,95 lt

Installation dimensions tecSol

Installation dimensions tecSol-Q
